Quilt Top Assembly:

Quilt Top is constructed by sewing pieced columns together. Pieced columns consist of whole and half patch blocks, and house blocks. Refer to quilt diagram below for block placements in constructing pieced columns. The black houses on white colorway might show the placement a little more clearly. Direct substitution is used for the white houses on black colorway. If you are making the white houses on black colorway, all the white skus used are their black counterparts.

Finishing Instructions

1. With the backing fabric laying taut, place batting and then top to form quilt sandwich. Baste.
2. Quilt as desired.
3. Square up quilt before adding binding strip, hanging sleeve and label.
