Squares 3 Ways

54 x 60

Choose pairs of fabrics that contrast and work well together.

Fabric Requirements:

Fabrics 1 & 2— $7/8$ yard each

Fabrics 3 & 4— $3/4$ yard each

Fabrics 5 & 6— $5/8$ yard each

Binding— $1/2$ yard

Cutting and Block Construction for Fabrics 1 & 2:

Cut both fabrics as follows:

(3) 2 inch strips sub cut into—(10) $2 \times 9 \frac{1}{2}$ units

(2) 2 inch strips sub cut into—(10) $2 \times 6 \frac{1}{2}$ units

(1) $6 \frac{1}{2}$ inch strip sub cut into—(5) $6 \frac{1}{2}$ inch squares

(2) $1 \frac{1}{2}$ inch strips sub cut into—(12) $1 \frac{1}{2} \times 4 \frac{1}{2}$ units

(2) $1 \frac{1}{2}$ inch strips sub cut into—(12) $1 \frac{1}{2} \times 6 \frac{1}{2}$ units

(1) $4 \frac{1}{2}$ inch strip sub cut into—(6) $4 \frac{1}{2}$ inch squares

1) Take all (6) $4 \frac{1}{2}$ inch squares from one fabric. Sew a $1 \frac{1}{2} \times 4 \frac{1}{2}$ unit from the contrasting fabric to the top and bottom of each square. Sew a $1 \frac{1}{2} \times 6 \frac{1}{2}$ inch unit from that same contrasting fabric to the right and left sides of each square. Yield 6 sewn blocks measuring $6 \frac{1}{2}$ ".

2) Make (6) more of the blocks in step #1 using the other fabric's $4 \frac{1}{2}$ inch squares and contrasting rectangle units. Yield 6 sewn blocks measuring $6 \frac{1}{2}$ ".

- 3) Do the same thing starting with all (5) 6 ½ inch squares from one fabric. Sew a 2 x 6 ½ unit from the contrasting fabric to the top and bottom of each square. Sew a 2 x 9 ½ inch unit from that same contrasting fabric to the right and left sides of each square. Yield 5 sewn blocks measuring 9 ½”.
- 4) Make (5) more of the blocks in step #3 using the other fabric’s 6 ½ inch squares and contrasting rectangle units. Yield 5 sewn blocks measuring 9 ½”.

Cutting and Block Construction for Fabrics 3 & 4:

Cut both fabrics as follows:

- (2) 2 ½ inch strips sub cut into—(12) 2 ½ x 6 ½ units
 - (1) 2 ½ inch strip sub cut into—(12) 2 ½ inch squares
 - (1) 2 ½ inch strip sub cut into—(6) 2 ½ inch squares
 - (3) 3 ½ inch strips sub cut into—(10) 3 ½ x 9 ½ units and (4) 3 ½ squares
 - (1) 3 ½ inch strip sub cut into—(10) 3 ½ inch squares
- 1) Take (6) 2 ½ inch squares from one fabric. Sew a 2 ½ inch square from the contrasting fabric to the top and bottom of each square. Sew a 2 ½ x 6 ½ inch unit from that same contrasting fabric to the right and left sides of each square. Yield 6 sewn blocks measuring 6 ½”.
 - 2) Make (6) more of the blocks in step #1 using the other fabric’s 2 ½ inch squares and contrasting units. Yield 6 sewn blocks measuring 6 ½”.

- 3) Do the same thing starting with (5) 3 ½ inch squares from one fabric. Sew a 3 ½ square from the contrasting fabric to the top and bottom of each square. Sew a 3 ½ x 9 ½ inch unit from that same contrasting fabric to the right and left sides of each square. Yield 5 sewn blocks measuring 9 ½”.
- 4) Make (4) more of the blocks in step #3 using the other fabric’s 3 ½ inch squares and contrasting square units. Yield 4 sewn blocks measuring 9 ½”.

Cutting and Block Construction for Fabrics 5 & 6:

Cut both fabrics as follows:

(2) 4 inch strips sub cut into—(6) 4 x 9 ½ units*

(1) 4 inch strips sub cut into—(6) 4 x 2 ½ units and (3) 2 ½ inch squares*

(2) 3 inch strips sub cut into—(12) 3 x 6 ½ units

(1) 1 ½ inch strips sub cut into—(12) 1 ½ x 3 units and (6) 1 ½ inch squares

*(use leftover from previous cuts to get remaining needed units.)

- 1) Take all (6) 1 ½ inch squares from one fabric. Sew a 1 ½ x 3 unit from the contrasting fabric to the top and bottom of each square. Sew a 3 x 6 ½ inch unit from that same contrasting fabric to the right and left sides of each square. Yield 6 sewn blocks measuring 6 ½”.
- 2) Make (6) more of the blocks in step #1 using the other fabric’s 1 ½ inch squares and contrasting rectangle units. Yield 6 sewn blocks measuring 6 ½”.
- 3) Do the same thing starting with the (3) 2 ½ inch squares from one fabric. Sew a 2 ½ x 4 inch unit from the contrasting fabric to the top and bottom of each square. Sew a 4 x 9 ½ inch unit from that same contrasting fabric to the right and left sides of each square. Yield 3 sewn blocks measuring 9 ½”.
- 4) Make (3) more of the blocks in step #3 using the other fabric’s 2 ½ inch squares and contrasting rectangle units. Yield 3 sewn blocks measuring 9 ½”.

Assembling the Quilt:

Arrange blocks in 8 rows. Each row should have either (6) 9 ½ " blocks or (9) 6 ½ " blocks. You can place your blocks in any pattern you like. There will be 8 rows total—(4) rows of small blocks and (4) rows of large blocks. Some example rows are below and full layout option on next page.

Once you are pleased with the layout, sew blocks together in rows then sew the rows together.

Quilt and bind as desired.
